

SOUTHERN CALIFORNIA
EDISON[®]

An EDISON INTERNATIONAL[®] Company

IMPORTANT INFORMATION ABOUT PROPOSED INCREASES IN ELECTRIC RATES

Southern California Edison Company (SCE) is seeking an increase in rates of \$25.587 million. In compliance with California Public Utilities Commission (CPUC) direction, SCE filed this request in its 2005 Nuclear Decommissioning Cost Triennial Proceeding (NDCTP) Application with the CPUC on November 10, 2005. The application is referred to as A.05-11-008.

SCE maintains nuclear decommissioning trust funds to pay for the eventual decommissioning of San Onofre Nuclear Generating Station Unit Nos. 2 and 3 and Palo Verde Nuclear Generation Station Unit Nos. 1, 2, and 3 after the end of their current Nuclear Regulatory Commission license periods. Current annual contributions to the decommissioning trust funds will not provide sufficient funds to pay projected decommissioning costs, so increased contributions are required.

The requested 2005 NDCTP revenue requirement results in an increase of \$25.587 million or 0.26%, when compared to total system revenues at present rates (as of November, 2005). The following table shows an estimate of proposed revenues and rate changes by customer group.

2005 Nuclear Decommissioning Cost Triennial Proceeding Application(NDCTP)

| Customer Group | Revenue Change (\$million) | %Change |
|--|---------------------------------------|----------------|
| Residential | 8.365 | 0.23% |
| Lighting – Small and Medium Power | 8.859 | 0.24% |
| Large Power | 7.293 | 0.34% |
| Agricultural and Pumping | 0.874 | 0.33% |
| Street and Area Lighting | 0.196 | 0.22% |
| TOTAL | \$ 25.587 | 0.26% |

If SCE's proposed NDCTP rate change is approved as requested, an average residential customer using 675 kilowatt-hours of electricity per month in the summer would see an increase of \$0.09 per month, from \$87.63 to \$87.72.

THE CPUC WELCOMES YOUR PARTICIPATION AND COMMENTS

The CPUC will issue its decision after evidentiary hearings on SCE's request. At the hearings, SCE representatives, interested parties, and the CPUC's staff will present testimony. The CPUC staff, engineers, accountants, economists, attorneys and other professionals independently evaluate utility rate increase proposals and present their analyses and recommendations to the CPUC at evidentiary hearings. The rates approved may differ from those SCE requests.

If you need advice on how to participate or wish to make comments to the CPUC, please write to:

The Public Advisor
California Public Utilities Commission
320 West Fourth Street, Suite 500
Los Angeles, CA 90013
E-mail: Public.advisor.la@cpuc.ca.gov

Please state in your letter that you would like a response; otherwise, no reply will be sent. The Public Advisor will give your letter to the Commissioners and it will become part of the formal file. Please mention Application No. 05-11-008.
