The Energy Assistance Fund Is Now Offered Year-Round

For 23 years, SCE customers and employees have donated to the Energy Assistance Fund (EAF), which is matched by SCE shareholders. More than \$14 million in generous contributions have helped more than 175,000 families since the program began. Previously, EAF was designed to help customers who needed assistance paying their electric bills during the winter months. Now, EAF is being offered to qualified customers year-round. Donations are especially helpful to those who have lost their jobs, are disabled or elderly. If you would like to make a donation, please enclose your tax-deductible contribution in the EAF envelope provided in this month's bill. You can also make a donation online by visiting www.sce.com/eaf.

Voluntary Renewables

You can help California's air quality by making a voluntary contribution to renewable energy resources like wind, solar, geothermal, biomass and small hydropower. SCE supports renewable energy and the landmark state legislation that mandates the use of these natural resources to generate electricity. Here's how you can contribute to clean air:

Make a contribution in any amount by writing a separate check to the Renewable Resource Trust Fund, which is administered by the California Energy Commission (CEC). Enclose your contribution check with your bill payment check in the return envelope. Please do not send cash. Your contribution is not tax-deductible, but will go a long way toward supporting alternative energy resources.

If you have any questions about the Trust Fund or renewable energy, please call the CEC at (800) 555-7794.
