Express Solutions Updates

Motors Solutions Expiring July 1, 2011

Effective July 1, 2011, all Express motors solutions will expire. Current motor incentive levels will be honored for complete* Express Installed applications and Express Pending Installation Reports (IRs) if received by June 30, 2011.

*A complete application refers to one where all sections are filled and required documentation is included (e.g., paid invoice or other approved cost documentation). If required documentation is not received, the application will be

automatically considered an Express Pending application and will no longer be eligible for current motor incentives.

Correction: Refrigeration Display Cases Solution Code

Please note, the correct Solution Code for "Night Covers for Open Vertical and Horizontal Display Cases - Medium Temperature" is RF-25748, not RF-25784 as indicated in the current Solutions Directory. This error will be corrected the in next edition of the Solutions Directory.

Coming Soon: New Product Location Form

Effective July 1, 2011, all customers applying for Express Solutions must submit a Product Location Form. This Form was created in order to facilitate an efficient post-installation inspection process for SCE's inspectors. Once available, provide this Form to your customers to ensure complete applications.

Look for more information in the next editions.

For more information on Express Solutions, visit www.sce.com/Express_Solutions.
