2003/2004 Technical Study Reports

	Week Beginning Date	2004 3/15	3/22	3/29	4/5	4/12	4/19	4/26	5/3	5/10	5/17	5/24	5/31	6/7	6/14	6/21	6/28	7/5	7/12	7/19	7/26	8/2	8/9	8/16	8/23	8/30	9/6	9/13	9/20	9/27	10/4	10/11	10/18	10/25	11/1	11/8	11/15	11/22	11/29	12/6	12/13	12/20	12/27	2005 1/3	1/10	1/17	1/24	1/31	2/7	2/14	2/21	2/28	3/7	3/14	3/21	3/28	4/4	4/11	4/18	4/25	5/2	5/9	5/16	5/23	5/30
Combined Aquatics																																																																											
CAWG-8	Amphibians and Reptiles																																																																																					
CAWG-10	Macroinvertebrates **(Final Revision)**																																																																																				
CAWG-10	Mollusk Survey Report **(Confidential)**																																																																																				
CAWG-13	Anadromous Salmonids																																																																																					
CAWG-1	Characterize Stream and Reservoir Habitats																																																																																				
CAWG-2	Geomorphology																																																																																					
CAWG-3	Wetted Perimeter																																																																																				
CAWG-3	PHABSIM Calibration																																																																																				
CAWG-4	Chemical Water Quality																																																																																				
CAWG-5	Monitoring **(Final Revised)**																																																																																			
CAWG-5	Water Temp Model Calibration																																																																																		
CAWG-14	Fish Passage																																																																																				
CAWG-11	Riparian																																																																																			
CAWG-5	Water Temp Model Simulation																																																																																			
CAWG-6	Hydrology																																																																																			
CAWG-3	PHABSIM Simulation																																																																																			
CAWG-9	Entrainment																																																																																		
CAWG-12	Water Use																																																																														
CAWG-7	Characterize Fish Populations																																																																															
Land Management																																																																																			
LAND-1	SCE Land Management Plan Assessment																																																																																			
LAND-9	Visual Quality Assessment																																																																																			
LAND-11	Volcanic and Seismic Assessment																																																																																			
LAND-7	Special Use Authorization Assessment																																																																																		
LAND-4	Fire Prevention and Protection Adequacy Evaluation																																																																																		
LAND-10	Air Quality Assessment																																																																																		
LAND-8	Facility Use Assessment																																																																																		
LAND-5	Storage Capacity and Generation Assessment																																																																																		
LAND-2	Multiple Use Opportunity Assessment																																																																																		
LAND-3	Cumulative Effects Analysis																																																																																	
LAND-6	Traffic/Circulation Study																																																																																		
Recreational Resources																																																																																		
REC-5	Reconnaissance Stream Corridor Recreation Assessment																																																																																		
REC-3	Whitewater Recreation Assessment Study																																																																																		
REC-1	Flow Information Feasibility Study																																																																																		
REC-2	Manage Spill-Event Feasibility Study																																																																																		
REC-4	Whitewater Play-Site Feasibility Study																																																																																		
REC-18	Use by Disadvantaged, Handicapped, and Minority Persons Assessment																																																																																		
REC-11	Compliance with ADA Assessment																																																																																		
REC-19	Information and Interpretive Opportunities and Needs Assessment																																																																																		
REC-8	Angling Opportunities and Experience Assessment

Draft Technical Study Report Review and Approval Timeline

2003/2004 Technical Study Reports

Week Beginning Date — 2004: 3/15, 3/22, 3/29, 4/5, 4/12, 4/19, 4/26, 5/3, 5/10, 5/17, 5/24, 5/31, 6/7, 6/14, 6/21, 6/28, 7/5, 7/12, 7/19, 7/26, 8/2, 8/9, 8/16, 8/23, 8/30, 9/6, 9/13, 9/20, 9/27, 10/4, 10/11, 10/18, 10/25, 11/1, 11/8, 11/15, 11/22, 11/29, 12/6, 12/13, 12/20, 12/27; 2005: 1/3, 1/10, 1/17, 1/24, 1/31, 2/7, 2/14, 2/21, 2/28, 3/7, 3/14, 3/21, 3/28, 4/4, 4/11, 4/18, 4/25, 5/2, 5/9, 5/16, 5/23, 5/30

Recreational Resources (continued)	
REC-10/17	Recreation Opportunities and Needs Assessment
REC-13	Reservoir Access/Facility Assessment
REC-16	Emergency Services Evaluation
REC-21	Winter Recreation
REC-12	Hunting
REC-20	Trails (Spring, Summer and Fall, Non-snow season)
REC-6	Fisheries Habitat Evaluation
REC-7	Fish Hatchery and Fish Stocking Evaluation
REC-14	Concessionaire Contracts Evaluation
REC-15	Reservoir Recreation Water-Surface Elevation Study
REC-22	Wilderness Areas
Terrestrial Resources	
TERR-2	Invasive/Exotic Plant Species
TERR-6	Valley Elderberry Longhorn Beetle
TERR-3	Special-Status Plant Populations
TERR-14	Mule Deer
TERR-1	Vegetation Communities
TERR-9	Bald Eagle and Osprey
TERR-12	Special-Status Bat Species
TERR-10	Great Gray Owl
TERR-5	Common and Special-Status Wildlife Species
TERR-8	Raptors
TERR-4	Native American Plants **(Confidential)**
TERR-7	Migratory Waterfowl
TERR-11	Riparian-Nesting Songbirds
TERR-13	Mesocarnivores
TERR-15	Other Game
Cultural Resources	
CUL-1 (1)	Prehistoric Cultural Resources
CUL-2 (1)	Historic Era (Pre-1954) Cultural Resources
CUL-3 (1)	Native American Places of Cultural Concern
CUL-4 (1)	Curation of Archaeological Collections and Historic Records
CUL-5 (1)	Public Involvement in Historic Preservation
