Retreat from the heat. Let us keep you cool.

Stay Cool and Save

During the summer months, Southern California Edison's Cool Center Program provides safe, air-conditioned facilities where you can relax from the heat and avoid running your own cooling devices at home.

In addition to helping you save on your home's electric bill, Cool Centers offer other great benefits as well:

- Help minimize the harmful impact to the environment by using less energy
- Reduce health hazards by avoiding extremely hot and uncomfortable temperatures
- Learn more about energy efficiency tips, programs and services that can help you keep more "green" in your wallet

Cool Centers provide refreshments and snacks, as well as transportation. Feel free to bring reading material from home, or participate in on-site activities such as crafts, games and movies.
