

Demand Response Programs Dual Enrollment Options

For Business Customers

If you are already enrolled in one of SCE's Demand Response (DR) programs, you are likely enjoying all the benefits of participation. Besides reducing energy usage, lowering your electricity costs and ultimately saving money, you are helping to make a difference in California's energy and economic well-being by reducing electricity usage when it is needed most.

Enrolling in more than one DR program at a time may give you incentives beyond what a single program may provide. If you are enrolled in a DR program, the table below shows your compatible second DR program option (these are subject to eligibility requirements).
